

C. JAY SMITH PARK

Preliminary Skatepark and Pump Track Concept Plan Option 2A

CONTEXT PLAN

SKATEPARK CONCEPT FEATURE

- A - Multi-direction Asphalt Pump track
- B - Landscape Detention Pond
- C - Skatepark Entrance and Seating
- D - Beginners Street Course Zone
- E - Landscape Detention Pond
- F - Quarter Pipe Divider
- G - Landscape Detention Pond
- H - Skatepark Entrance and Seating
- I - Street Plaza Zone
- J - Landscape Detention Pond
- K - Large Stair Set with Handrail
- L - Landscape Amphitheater Seating
- M - Backyard Style Bowl
- N - Interior Skate-able Planter
- O - 5' - 8' Flow Bowl
- P - Landscape Amphitheater Seating

The second concept for the C. Jay Smith Park consists of a multi directional asphalt pump track, an extensive street plaza with beginner, intermediate and advanced sections as well as a backyard style bowl and flow bowl. The street plaza offers a variety of ledges, rails, stairs, banks, transitions and hips all connected to an elevated bowl zone that overlooks the plaza. Integrated amphitheater seating into the existing hillside makes for a great place for spectators to enjoy the action at a safe distance.
